M&L Chambers (Law firm)

- Business Development Assistant
- Sales and Marketing

January 2024

Synotech – Junior Software engineer

- **Built Web Applications:** Worked with a team to create and maintain web apps using React, making sure they look good and work well on different devices.
- **Developed Mobile Apps:** Helped build mobile apps with React Native, adding features like user login, data updates, and notifications.
- **Componentization:** Made reusable parts of the app in React, which saved time and kept the code consistent.
- **API Integration:** Integrated APIs to allow the front-end to communicate with the backend, handling data fetching and displaying it to users.
- **Collaboration and Version Control:** Worked with Git and GitHub to manage code, collaborate with team members, and review each other's work.
- **Collaborated on UI/UX:** Worked closely with designers to turn their designs into real, functional web pages and mobile screens.
